FACIAL SKIN CARE

Stage 1 – cleansing

(twice a day)

Use TianDe milk or face cleansing gel:

- in the morning – to cleanse the skin from dead skin cells, cutaneous fatty secretion, etc.;

- in the evening – to remove make-up leftovers and other dirt.

To increase the effect use sponges for washing from pages 15, 37, 53.

Stage 2 – toning (twice a day)

Clean the skin with lotion or tonic in the morning and in the evening to remove leftovers of cleansing products, cosmetics and other dirt, to boost the skin tone.

Stage 3 – moisturizing and protection

Day facial cream does not only plump the skin with moisture, boosts its tone but also protects it.

Stage 4 – nourishment

Apply nourishing cream in the evening after cleansing and toning for skin regeneration.

Care for the skin around the eyes

(twice a day)

The skin around the eyes is only 0.5 mm thick. The first wrinkles, dark circles, pouches originate exactly in this delicate area. TianDe creams, gels, serums and essences will help to preserve the youthfulness of the look.

Deep cleansing

Keratinized skin cells accumulate gradually, pressing down the new ones. The skin should be stimulated for regeneration. Use TianDe peelings to launch the regeneration process.

Frequency of use depends on the skin type: oily skin – 2-3 times a week; normal skin – 1-2 times a week; dry and sensitive skin – once in two weeks.

HAIR CARE

Stage 1 – cleansing

Choose TianDe shampoo depending on the problem you want to solve. To enhance hair growth, to return its natural colour, eliminate dandruff? You'll find the ideal for you product in the company's product range.

Stage 2 – nourishment

Hair cuticles open after you wash your head, and it's required to close them to make your hair smooth, shining healthily, protect it from adverse impact and strengthen the effect of shampoo use.

Conditioner is the easiest means for closing the hair cuticles first of all as well as untangling the curls, making them silky and elastic.

Balm is a powerful product for solution of certain problems. It is capable to restore dry hair, eliminate split ends.

Mask is the "heavy artillery" capable to solve the most serious problems.

Stage 3 – intensive care and protection

Use special indelible TianDe products to enhance the effect.

Activating tonic for hair growth, with its active contents treating hair follicles, stimulating new hair growth.

Serum, sprays and argan oil for hair care, its reliable protection from thermal impacts, adverse environmental factors.

1. **Under your eyebrow**, touching the bridge of your nose a little, apply the lightest matte shade (# 1) from the palette*.

2. Darken **the eyelid crease** by beige shade (e.g. # 7*). Thus you'll emphasize the eye contour, visually enlarging the eyes.

3. Add a highlight **to the inner corner of the eye**. Shade # 2* will serve ideally as a highlighter.

4. Apply the main tone that will be most suitable for today's look **to the whole of the eyelid**. For example, # 12*.

5. For your look to be deeper, work on the **inter-eyelash contour** with a darker shade (# 11* will suit wonderfully).

You must blend all shades for transitions to be smooth.

If you have closely set eyes, apply the liner from the middle of your eyelid. In order to make round eyes almond-shaped, emphasize the outside corner of the eye, the thickest line should be there. To make narrow eyes more wide-open, evenly thicken the line in the centre and do not be too enthusiastic about long lines.

THEY ARE MADE FROM PRECIOUS SIBERIAN CEDAR – THE SYMBOL OF LONGEVITY, PROSPERITY AND POWER.

THEY HAVE UNREPEATABLE FRAGRANCE: YOU ONLY HAVE TO HOLD THE TALISMAN IN YOUR HANDS FOR SEVERAL SECONDS – AND IT WILL DEMONSTRATE ITS NOBLE AROMA, CAPABLE TO RELIEVE TIREDNESS AND MAKE YOU FEEL CALM.

THEY ARE HANDMADE. YOU WILL NEVER SEE TWO IDENTICAL CHARMS: EACH OF THEM IS CUT BY THE MASTER BY HAND, OBSERVING THE OLD CUSTOMS OF THE TRADE. THE MOUNTAIN CEDAR'S SPLIT, ITS TEXTURE AND COLOUR ARE UNREPEATABLE.

ACCORDING TO LEGEND, THE LOVE CHARM HELPS TO KEEP TRUST, UNDERSTANDING AND TENDERNESS IN RELATIONS. IT WILL HELP IN OVERCOMING ALL TROUBLES AND WILL PROTECT THE FAMILY FROM MISFORTUNES.

This was the great love of poor shepherd Biy and Khan's daughter Katun. Cruel Khan wanted to separate the lovers but they ran away in order to save their feelings. The Khan was enraged and sent his servants to bring his daughter back. But Katun and Biy quickly went across all mountains and when they saw a valley, they turned into rives and embraced each other tightly. And then the lovers flowed as one river – the Ob River.
